

Confidis – Company Profile

- Established in 2011, Confidis (\kon-fi-dis\) is passionate about helping organizations to succeed by becoming their Confidant
- We deliver deep services at the intersection of Business and Technology - our service lines include IT Security, Business Continuity, Data Privacy, Training and Awareness
- We deploy only experienced consultants to ensure that you get quick results
- Our experienced advisors have served various industries
- We believe in having our “skin in the game”. Hence, our services extend beyond providing merely advice. We are prepared to implement the advice we give

Security & Compliance Services

Why Clients Select Us

- Required trusted advice from globally-recognised experienced professionals
- Wanted us to help them align their business against international best practices and standards
- Wanted a vendor-neutral perspective, not a reseller view
- Did not have a full time requirement for a security executive
- Were overwhelmed by the diverse and constantly digital landscape
- Wanted us to become not their vendors but partners in their business
- Wanted us to blend into the organization and help deliver results by managing relationships and stakeholders

Our Credentials

Industry Experience
